

*****ASAP Alert*****

6/9/15-7/9/15

RCTP new Runway 23L displaced threshold is not yet included in the validated RAAS runway data. Flights using Rwy 23L/05R are advised to select RAAS override for takeoff and within 15 nautical miles of landing on RWY 23L/05R. Selecting RAAS override disables RAAS functions. The EGPWS remains functional for EGPWS modes. For 777/767, EICAS message "RUNWAY SYS" may be displayed.
