

----- ASAP ALERT -----

The ASAP Event Review Committee has recently noticed an increase in Pilot Deviations filed against FedEx pilots by the DEN ATC for failure to comply with charted departure procedures.

Be aware, that on every RNAV departure out of DEN there is an "At or below 10,000ft" restriction that must be complied with unless removed by ATC. Some of the 10,000ft restrictions are quite a long distance from the departure runway. There are many RNAV departures that also include higher restrictions.
